## Lethal 06 Sends

By LTC Christopher Majors

Hello Lethal Strike Soldiers, Leaders, and Families. I hope you all have recovered from the holidays and are back in your weekly battle rhythm. January sure flew by quick. As you will see in this edition of the Lethal Word, the Battalion had a lot of events going on to date. We had units going to the field executing gunnery training/certifications, held the annual Lethal 6 Holiday social, and we said farewell to CSM Perches and welcomed CSM Gulley and his family to the Battalion.

February will be a busy month with weapon ranges, drivers training, and gunnery training/certifications. I encourage all Families to either stay or get involved with your SFRGs as they are given information on upcoming events, both work related and events happening on FSOK and off the installation.

As we are in the middle of winter now, please pay attention to the weather as it changes drastically here in Oklahoma. It could be in the 60's one day and be in the single digits the following day. If you are heading on any long road trips, ensure you pack accordingly and are prepared. Always place safety first and ALWAYS have a plan.

Again, I am honored to be your Commander and look forward to seeing all the great things our Soldiers and Families continue to do on a weekly basis. Lethal Strike! Defend the House! - Lethal 6

# Lethal 7 Assumption of Responsibility (AoR)

3-2 ADA Leaders and Soldiers bid farewell to CSM Victor Perches during the Battalion Assumption of Command (AoR) ceremony on 06 January 2023. # The Charlie Chaos Monthly

January was a very fruitful month for the CHAOS Battery. We kicked off the year with a record ACFT for all of our new arrivals as well as for those looking to improve their overall score. The CHAOS Battery then began field prep and layouts to ensure all equipment was good to go for our training exercise which also gave us the opportunity to exercise their Basic Warrior Tasks and Battle Drills as well as our convoy abilities. The weather also gave our Chaosians the opportunity to exercise their cold weather training; we had some snow flurries come down while in the field but that did not stop our troops from executing their mission and being successful. Our FTX resulted in all our Launcher crews being certified as well as our three GMT re-load crews certifying. Charlie Battery currently holds all three of the fastest re-load times in the Lethal Strike Battalion!! January 2023 was also bitter sweet because we had many Chaosians leave the Battery to become a part of HHB for their upcoming support to EU- these fine Chaosians were hand selected due to knowledge and hard work. With this we close out

ary and head into February we will commence preparation for upcoming VIII certifications. **ONE US!!**

# The Delta Death Dealers Monthly

The Delta Death Dealers started January finishing block leave. They came back to an admin week that was busy with layouts and getting ahead on administrative requirements. The following two weeks consisted of gunnery training and getting ready for the field. The Death Dealers received accolades for their support of the ICC crew certifications.

While in the field Delta supported the ICC crew certifications as well as received training on 10 level tasks. The upcoming AMD crews received a lot of hands on the equipment and time to conduct training. The Soldiers that were not engaged in that AMD training received instruction on a plethora of topics.

The topic that had the most engagement from the unit was a class that SSG Tarr helped set up with an external agency. He had coordinated with a childhood friend SSG Rose, who is with the C/UAS academy, to come down and teach a class on familiarization with UAS and C/UAS systems. The Soldiers were engaged and it started a lot of dialogue about how we might go about countering the emerging threat.

The Death Dealers did come out of the field during the snow storm to ensure that Soldiers were able to get hot chow while the Field Feeding Team was not able to support.

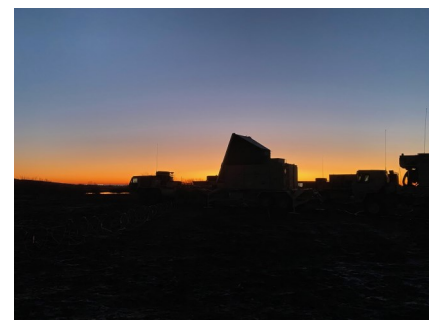

SFC Holland started SLC this month as part of his PME. SGT Coreano started PMG and continues in the course. He is doing well and is engaged in the training.
