INTERNATIONAL

Join TRAX — the Team Our Brave Warfighters Count On

In the field, when and where it really matters, gear and equipment must work properly. Lives depend on it. This is why everyone at TRAX works with dedication, pride, and determination. As the leading provider of high-quality technical and logistical testing and evaluation capabilities for the U.S. Government, no one works harder to ensure the equipment our troops employ is functioning as it should than the employees at TRAX.

With operations at the U.S. Army Yuma Proving Ground (YPG), TRAX supports military test facilities and ranges with program management and operations, systems engineering and technical assistance, and maintenance services. Our employees are made up of talented professionals facing challenges in a dynamic work environment. If this sounds like the right fit for you, come and join us!

TRAX International - Yuma Proving Ground

TEST AREAS OF EXPERTISE

ELECTRONICS

TRAX Electronics provides maintenance and operational support in several major functional areas, including telemetry, radar, ballistics, automotive instrumentation, meteorological systems, and robotics.

ENGINEERING & IT SERVICES

TRAX provides continuing and long-term support to ensure superior performance. We design, plan, execute, analyze, and prepare final test reports/evaluations for military and private industry programs. TRAX also transports, reports, and stores real-time and recorded test data.

MAINTENANCE OPERATIONS

The TRAX Maintenance Operations Group provides maintenance support for the YPG fleet, including passenger vehicles and trucks, commercial and military vehicles of all sizes, generators, passenger buses, material-handling, construction, and earth-moving equipment.

MUNITIONS

The TRAX Munitions Group is responsible for ammunition logistics, ammunition assembly plan support, conditioning chamber operations, ammunition recovery, ballistics, and artillery testing.

OPTICS

The Optics Group provides the operation and maintenance of the Kineto Tracking Mounts, high-speed video camera systems, and other image-gathering equipment to track fast-moving objects during tests. It also provides terrain surveying and mapping services.

TARGETS & AERIAL DELIVERY SERVICES

The Targets Group fabricates, operates, and maintains stationary and moving targets, including foreign, surrogate/hybrid, and domestic threat target vehicles. It also provides aerial delivery support services.

Yuma and the beauty of the Great Southwest

Under beautiful blue skies and amidst an extraordinary array of recreational choices, you can live, work, and play in the friendly and laid-back lifestyle of Yuma, Arizona. Located in the historic southwestern tip of Arizona, Yuma is a year-round tourist haven with the look of a classic western town. Known for its superb scenery and delightful winter weather, Yuma offers fishing and boating on the lively Colorado River, several hundred acres of city parks, and 12 world-class golf courses, including Arnold Palmer's Mesa del Sol. Yuma was ranked the sunniest place on earth by the Guinness Book of World Records. At an elevation of only 138 feet, Yuma has about four inches of rain per year. So, leave your rain gear at home and come to Yuma to play in the sun!

Yuma is ideal for cycling, hiking, and exploring, as well as casino entertainment on local Native American reservations. Minutes from the Mexican border, Yuma is only a few hours' drive from sunny California beaches and winter skiing in northern Arizona. Yuma is one of the fastest growing areas in the United States, and a great place to raise a family. Yuma has a favorable cost of living, excellent schools, low crime, and an active city government with a solid infrastructure that ensures you and your family will have the best support and growth opportunities available.
