**11.18.2024 AT 1100
SNOW HALL, ROOM 117**

**THE UNIVERSITY OF OKLAHOMA
PRESENTS:**

Dr. Heinze will discuss the rules of self-defense as they pertain to attacks perpetrated by non-state armed groups, and how this body of law has evolved over the previous decades. The presentation will specifically examine Israel's response to the October 7, 2023 attacks according to this evolving set of rules and will increase our understanding of how international law—specifically the law of self-defense—applies to conflicts with non-state actors.
